We Offer 4 PG-Diploma & 17 Certificate Courses.

Let us introduce our courses through use cases

Use Case : Smart Safety Monitor

Some Features of products are

- 1 Flood, Freeze and Fire detection
- 2 Control Thermostat and Valve Operation
- 3 Raise Alert
- 4 Predict Maintenance of machine

The product contains components:

- 1 Smart Sensor and hubs programmed to detect Freeze/Fire or Flood.
- 2 To process the message from sensor and send alerts
- 3 A portal (App) to control valve and Thermostat operation
- 4 A view to show all parameters of the platform
- 5 A model to analyze the signals of machine to predict the failure
