Every Halloween, Dabney House conducts the infamous “Millikan pumpkin-drop experiment” from the top of Millikan Library, the highest point on campus.

- A claim was once made that the shattering of a pumpkin frozen in liquid nitrogen and dropped from a sufficient height would produce a triboluminescent spark.

Every Halloween, Dabney House conducts the infamous “Millikan pumpkin-drop experiment” from the top of Millikan Library, the highest point on campus.

- A claim was once made that the shattering of a pumpkin frozen in liquid nitrogen and dropped from a sufficient height would produce a triboluminescent spark.

Every Halloween, Dabney House conducts the infamous “Millikan pumpkin-drop experiment” from the top of Millikan Library, the highest point on campus.

- A claim was once made that the shattering of a pumpkin frozen in liquid nitrogen and dropped from a sufficient height would produce a triboluminescent spark.

awsfdasfdas

-
- The title of the event is an oblique reference to the famous Millikan oil-drop experiment which measured e , the elemental unit of electrical charge.
